

Aiden Dohyun Lee

Lawrenceville, GA 30043 | 678-697-1823 | dlee162@students.kennesaw.edu | <https://www.linkedin.com/in/aiden-lee09/>

Objective

Fourth year Industrial and Systems Engineering Major with experience in leadership and ample amounts of work experience. Strengths revolve around working together with others, an entrepreneurship mindset, and being dedicated to the work at hand. Currently looking to break into the Product Manager or Consulting spaces with my relevant experience, coursework, and current seeking degree.

Education

Kennesaw State University | Kennesaw, GA

Bachelor of Science in Industrial and Systems Engineering, GPA 3.3

August 2021 – Present

Expected Graduation, December 2026

Skills

Programming: Python, Java, R, SQL, C++

Platforms: Windows

Professional Organizations: None

Communication: Presentations (large and small audiences), leadership (bringing others together)

Languages: English (fluent), Korean (native)

Experience

Cox Automotive | Atlanta, Georgia

May 2025 – August 2025

Product Management Intern

- Designed and launched 3 new product features, introducing custom tiles that streamlined workflows and saved consumers from having to go to different sources.
- Partnered with various cross-function teams (engineering, UI, and QA) to define requirements, ensure alignment, and oversee feature development through all its stages.
- Leveraged Rally to track epics, user stories, and sprints, gaining proficiency in Agile methodology and product lifecycle management.

Amazon | Augusta, Georgia

June 2024-August 2024

Area Manager Intern

- Launched a project to enhance the incoming freight process, resulting in a 10%+ increase in daily throughput.
- Led a team of 40+ associates, creating a friendly environment and ensuring that daily tasks went efficiently through communication and feedback.
- Managed daily reports and documentation with accuracy and met all deadlines for end-of-day submissions.
- Implemented a process improvement for wooden pallets within the warehouse that saves over \$50,000 per year.

Luxe Pressure Washing LLC | Kennesaw, Georgia

April 2022 – April 2025

Owner/CEO

- Handled customers to evaluate their needs in services and added services as necessary.
- Managed all HR, Payroll, and Customer Service roles for the business before moving to an employee.
- Oversaw all advertisements running and optimization to ensure best results for customer acquisition.
- Maintain all equipment in use with our company to ensure the lowest amount of downtime possible.

Relevant Coursework

Probability and Statistics II: Applied statistical methods including hypothesis testing, chi square analysis, and regression modeling to solve engineering and business problems using data.

The Role of Industrial Engineering Technology in Industrial Systems: Analysis of industrial systems and processes, this course covered all of the basic principles of systems and designs, as it will be covered in the fields of manufacturing, distribution and service industries.

Programming Principles: Programming using Python in Visual Basic to understand the fundamentals of computer programming. Worked with concepts such as decision making, looping, arrays, file, strings, and counters.
